

## An open house seminar by Nazer & Co

Nazar & Company organized an open house seminar at their premises for a demonstration of their Nazmatic with PLC, fabric inspection machine. The "Nazmatic" with PLC control has been developed for the inspection of all types of Woven Fabrics, from very light – weight fabrics up to heavy denim fabrics. Nazer's new belting department introduced the latest products from Habasit, Bando and Optibelt.

Model "Nazmatic" is equipped with three motors all synchronized by frequency inverter controls, two geared motors ensure smooth running and control of tension, which allows the proper inspection of stretch fabric with Lycra.

Tension is controlled simultaneously by mechanical and electronic means.

One direct drive motor controls the moveable head that gets signal through photo-cell, which ensures edge control.

Mr. Peer Mohammad Diwan – Chairman Mushtaq & Co. at the Belting Department.

The machine is designed to be user friendly, easy to operate, and has a digital fault registration system, a sensor for fabric slowing control and fabric end. The machine is suitable for making rolls on paper tubes, PVC pipes or metal / wooden rolls from open fabric trolleys, A-frame / batcher trolley.

It can be equipped with a batcher / de-batcher. "Nazmatic" has a large number of machines operating in Pakistan, Bangladesh and the Gulf region.

The next generation machine is featured with a modem enabling online entry into the machine for trouble-shooting and programming.

For reporting purposes, this machine is also come equipped with a digital fault registration coupled with a printer.

Mr. Kamran Chandna, Mr. Abbas Mooraj, Mr. Javed Bilwani and Mr. Yasir Iqbal.

The electrical panel has a PLC control system, whereas OP / SMI display indicates operation and fault mode.

Mr. Abbas Mooraj with Mr. Ayaz Thaver of Chairman G.I.A Association.

A large number of customers were present including Mr. Mohammad Idrees Ahmed – Textile Commissioner, Mr. Javed Bilwani – Chairman Pakistan Hosiery Manufacturers Association, Mr. Kamran Chandna – President Pakistan Sweater Manufacturers Association together with many Chairmen, CEO's and Managers of several industries including Textile, Garments, Knitting, Paper and Yarn Industries. There were more than 120 people at the Open House.

Various samples and products were displayed including Lubricants from M/s Brueckner for the Stenter. Details of the latest development of various Principals were also made available for the interest of open house visitors. ♦

Mr. Mohammad Idrees Ahmed – Textile Commissioner, Mr. Gul Tabba – CEO Luckytex and Mr. Pervez Iqbal at the Nazer Inspection Machine, Nazmatic PLC Control.
